

Principles and Applications of Electrical Engineering, 2007, Giorgio Rizzoni, Tom T. Hartley, 0072962984, 9780072962987, McGraw-Hill Higher Education, 2007

Rizzoni provides a solid overview of the electrical engineering discipline that is especially geared toward the many non-electrical engineering students who take this course. The hallmark feature of the text is its liberal use of practical applications to illustrate important principles. (Midwest).
